

Help

Changing the size of the text refers to making the text appearing smaller or bigger from its standard size. There are three options provided to you to set the size of the text that affects the readability. These are:

- **Large:** Displays information in the large font size. Select image for increasing the text size.
- **Medium:** Displays information in a standard font size, which is the default size. Select normal font for keeping the text size to medium.
- **Small:** Displays information in the small font size. To decrease the text size select small font image displayed on the top of the page.

The about us section contain essential information about the Boart of Practical training (Eastern Region) and comprise of the following information.

- Mission & Vision
